

For Immediate Release

RIBA opens the 2020 Norman Foster Travelling Scholarship

- Today, the Royal Institute of British Architects (RIBA) opened applications for the 2020 Norman Foster Travelling Scholarship.
- Applications are welcomed from students around the world who are enrolled in, and have successfully completed, the first year of a professional qualification in architecture in one of the institutions of higher education invited to participate. A £7,000 grant will be awarded to one winner, which will be selected by a panel of judges, including Lord Foster and RIBA President Alan Jones.

Madrid, 26 February 2020

This Wednesday 26 February 2020, the Royal Institute of British Architects (RIBA) opened applications for the 2020 Norman Foster Travelling Scholarship.

Applications are welcomed from students around the world who are enrolled in, and have successfully completed, the first year of a professional qualification in architecture in one of the institutions of higher education invited to participate. A £7,000 grant will be awarded to one winner, which will be selected by a panel of judges, including Lord Foster and RIBA President Alan Jones.

Lord Foster has said:

'As a student I won a prize that allowed me to spend a summer travelling through Europe and to study first-hand buildings and cities that I knew only from the pages of books. It was a revelation—liberating and exhilarating in so many ways. Today it is the privilege of the Norman Foster Foundation to support the RIBA Norman Foster Travelling Scholarship, which I hope will have a lasting legacy—offering the chance for discovery and the inspiration for exciting new work—for generations to come.'

RIBA President Alan Jones said:

'We are very grateful to the Norman Foster Foundation for their continuous generous support. This year we are inviting 428 schools of architecture from around the globe, all RIBA-validated institutions, to nominate their talented students. The Norman Foster Travelling Scholarship gives aspiring architects the chance to carry out important international research—I would encourage all eligible to apply.'

The deadline for submissions is 24 April 2020 at 17:00. Further details can be found here:

Notes to editors:

- For further press information contact Emily.Stallard@riba.org +44 (0) 20 7580 3813
- If you are a student interested in applying you can find out more information [here](#).
- First established in 2006, the scholarship, supported by the Norman Foster Foundation, is now in its fourteenth year and is intended to fund international research on a topic related to the sustainable survival of our towns and cities, in a location of the student's choice. Past RIBA Norman Foster Scholars have travelled through the Americas, Europe, Africa, South East Asia, the Middle and the Far East, and Russia. Proposals for research might include: learning from the past to inform the future; the future of society; the density of settlements; sustainability; the use of resources; the quality of urban life; and transport.
- The list of higher education institutions invited to nominate students is selected by the RIBA and can be found [here](#).

Over 400 higher education institutions are invited to participate, and this list includes all institutions that offer qualifications validated by the RIBA or are recognised by the Commonwealth Association of Architects; it also includes a large number of schools listed under other recognition systems (such as the European Directive for Recognition of Professional Qualifications in the EU, or the National Architectural Accreditation Board in the US.) Past recipients of the RIBA Norman Foster Travelling Scholarship:

2019: Siti Nurafaf Ismail - University of Malaya, Malaysia - 'Architecture of Humility'

2018: Steven Hutt - University of Greenwich, UK - 'East of Eden'

2017: Chloe Loader - University of Lincoln, UK - 'Emerging Cities: Sustainable Master-Planning in the Global South'

2016: Abel Feleke - University of Western Australia - 'Weaving the Urban Fabric: Examining the Significance of Community'

2015: Charles Palmer - University of Sheffield, UK - 'Cycling Megacities'

2014: Joe Paxton - Bartlett (UCL), UK - 'Buffer Landscapes 2060'

2013: Sigita Burbulyte - Bath University, UK - 'Charles Booth Going Abroad'

2012: Thomas Aquilina - University of Edinburgh - 'Material Economies: Recycling Practices in Informal Settlements Along African Longitude 30'

2011: Sahil Bipin Deshpande - Rizvi College of Architecture, India - 'Sanitation: A Case Study across Eight Metropolises'

2010: Andrew Mackintosh - Robert Gordon University, UK - 'In Search of Cold Spaces'

2009: Amanda Rivera - University of Bio Bio, Chile - 'Ancestral Cities, Ancestral Sustainability'

2008: Faizan Jawed Siddiqi - Rizvi College of Architecture, India - 'The Role of Public Transport in Shaping Sustainable Humane Habitats'

2007: Ben Masterton-Smith - Bartlett, UK - 'Emerging East: Exploring and Experiencing the East Asian Communist City'

- The Royal Institute of British Architects (RIBA) is a global professional membership body that serves its members and society in order to deliver better buildings and places, stronger communities and a sustainable environment. Follow [@RIBA](#) on Twitter for regular updates.

Norman Foster Foundation

Norman Foster Foundation

The Norman Foster Foundation promotes interdisciplinary thinking and research to help new generations anticipate the future.

The first mission of the Norman Foster Foundation is to promote the importance of architecture, infrastructure and urbanism for the betterment of society. To this end, the second mission is to encourage new thinking and research across traditional boundaries to help younger generations anticipate the challenges of future change. In particular, it addresses those professionals who are concerned with the environment—architects, engineers, designers, urbanists, civic leaders, planners and artists. This is at the heart of a holistic approach to design and is ever more relevant as populations shift to cities. With the implications of climate change, robotics and artificial intelligence, sustainable design is not about fashion but about survival.

The Foundation holds the Norman Foster Archive and Library, which provide a window into the larger narrative and history of our built environment through the work of Norman Foster. This is complemented and supported by drawings and models from other significant architects such as Claude-Nicolas Ledoux, Le Corbusier, Mies van der Rohe, Charles and Ray Eames, Buckminster Fuller, Richard Rogers, Zaha Hadid, and Tadao Ando.

Through its research initiatives and programmes, the Norman Foster Foundation encourages the transfer of advanced knowledge in a wide range of design fields. The Foundation's educational initiatives are structured around research and workshops, fellowships and forums around the Foundation's core objectives.

The Norman Foster Foundation is based in Madrid and operates globally.
